

Transylvania County is a special place. Small, authentic mountain communities like ours are difficult to find. That's part of what makes us a such a desirable place to live, work and visit. Our small businesses are at the heart of who we are and the driving force for our local economy. They represent people who love Transylvania County enough to stake their livelihood in our community.

Right now, local small businesses are being crushed by the COVID-19 pandemic. **These businesses, who have served and supported residents and visitors for so long, are under significant threat. Now, it's our turn to serve and support them. If we want a vibrant Transylvania tomorrow, we must act today.**

The Transylvania Business Support Task Force (TBSTF) has created an emergency relief grant program, Transylvania Tomorrow, to support small businesses in Transylvania County. Community Focus Foundation, a 501(c)(3), is serving as the fiscal agent. Grants of up to \$3,000 will be awarded. All gifts are tax deductible. Once the grant application is live, applications will be reviewed every two weeks and will continue for 90 days, at which time, the grants program will be reassessed.

To make a donation or learn more, visit our [web page](#) or [Face Book page](#). We humbly ask for your help in making a brighter *Transylvania Tomorrow*.
